## Practice Field Guidelines

We are fortunate in Golden to have enough practice fields so that every team has their own dedicate time slot(s). Please help keep our fields in good condition by following these guidelines:

1. Pick up after yourself (trash, equipment, water bottles...)
  2. Report anything out of the ordinary (vandalism, missing/damaged equipment)
  3. Report any damage to surrounding property, even if it was your teams fault (broken windows).
- Occasionally, you may find another team or organization on “your” practice field. If you do, please follow these guidelines:
- o Politely ask for their name and what organization they are with.
  - o Call Kevin (Field Coordinator) **720-320-8220**
  - o DO NOT get in an argument with the person, this will only make the situation worse.
  - o Remember: One practice will not make or break your season!

Practice times are from 4-6 and 6-8. Early in the season it does not stay light out until 8:00 (before daylight savings time). If you have the early time slot, please remember that you will need to share your practice field with the person who has the late slot. Please work with the other coach to come up with an arrangement that works for both of you.
